

# LINK

Innovative vehicle access

# GET IT ALL & more

## YOU DESERVE THE BEST

The LINK is a turning and lowering seat base that offers you superior vehicle access. Cutting-edge technology designed for the driver or passenger's side, it provides you with simplified transfers at the ideal height to meet your specific needs.

Get safe accessibility for your lifestyle. Installation leaves your vehicle's frame untouched, the interior looking great and keeps your comfort and safety intact. Feel secure knowing that our design philosophy means you always keep the original seat comfort, aesthetics and, most importantly, standard safety components.

Everything you would expect from a turning seat base, plus more... the LINK gives you complete comfort, control and safety.

# SAFE TY

first

The LINK brings complete protection for you and your loved ones. It always preserves the delicate balance between the airbags, seat position sensors, weight sensors and seatbelt anchorages. It also retains the intended H-point position for all passengers.

Standards you can trust. Tested for extreme hot and cold weather, the LINK is built to last.

The heavy-duty steel frame offers a 350-lb weight capacity.

Intelligent power management with a dynamic SLEEP MODE monitors and protects the power source, your vehicle's existing battery.

Alternate manual emergency back up for your peace of mind.

Backed by our 3-year warranty.

# POWER ER

& control

## INDEPENDENCE WITHIN YOUR GRASP

Gain powered forward and back adjustments, plus a unique tilt feature that provides the ability to reposition the angle of the seat. Integrated memory knows your previous adjustments and gives you one-button return to your preferred seated position. Take advantage of our industry-exclusive LIFT UP feature that can be customized for your convenience.

Access your vehicle and adjust your seat with the easy-to-use pendant. In and out function, forward and back, tilt up and down adjustments. Any of the seat's individual movements can be tailored to you.

Go where you want, how you want, when you want.

# COMFORT & style

## YOUR RIDE, YOUR WAY!

Whether you are a driver or a passenger, keep the genuine comfort and style from the vehicle manufacturer. The frame remains how it was originally engineered. So does the seat, which includes the original recline, shape, height, material and color. In most applications, heated and cooled seat options remain functional.\*

Tucked neatly away, the LINK preserves the integrity of your space. Headroom and legroom are all yours.

Shroud color options always included: Black, Gray or Tan. Optional footrest available.\*

*\*See your local dealer, some exceptions may apply.*

We innovate to offer you the best possible vehicle access solutions. We always design with your comfort, independence and safety in mind. Our products pass strict certification processes including: crash testing, cycle testing and weight capacity testing. We are proud to exceed industry's standards.

Please visit one of our dealers for a personalized evaluation and overview of options tailored to your needs.
