

CATALYST

4E

CATALYST 4^E

MOVING YOU AND
YOUR CUSTOMER

FORWARD

Adjustable, Affordable, Better by Design. Introducing the Catalyst 4E, raising the bar in both performance and quality.

Catalyst... the ride you expect, the brand you depend on.

Lightest at
13.3 lb.

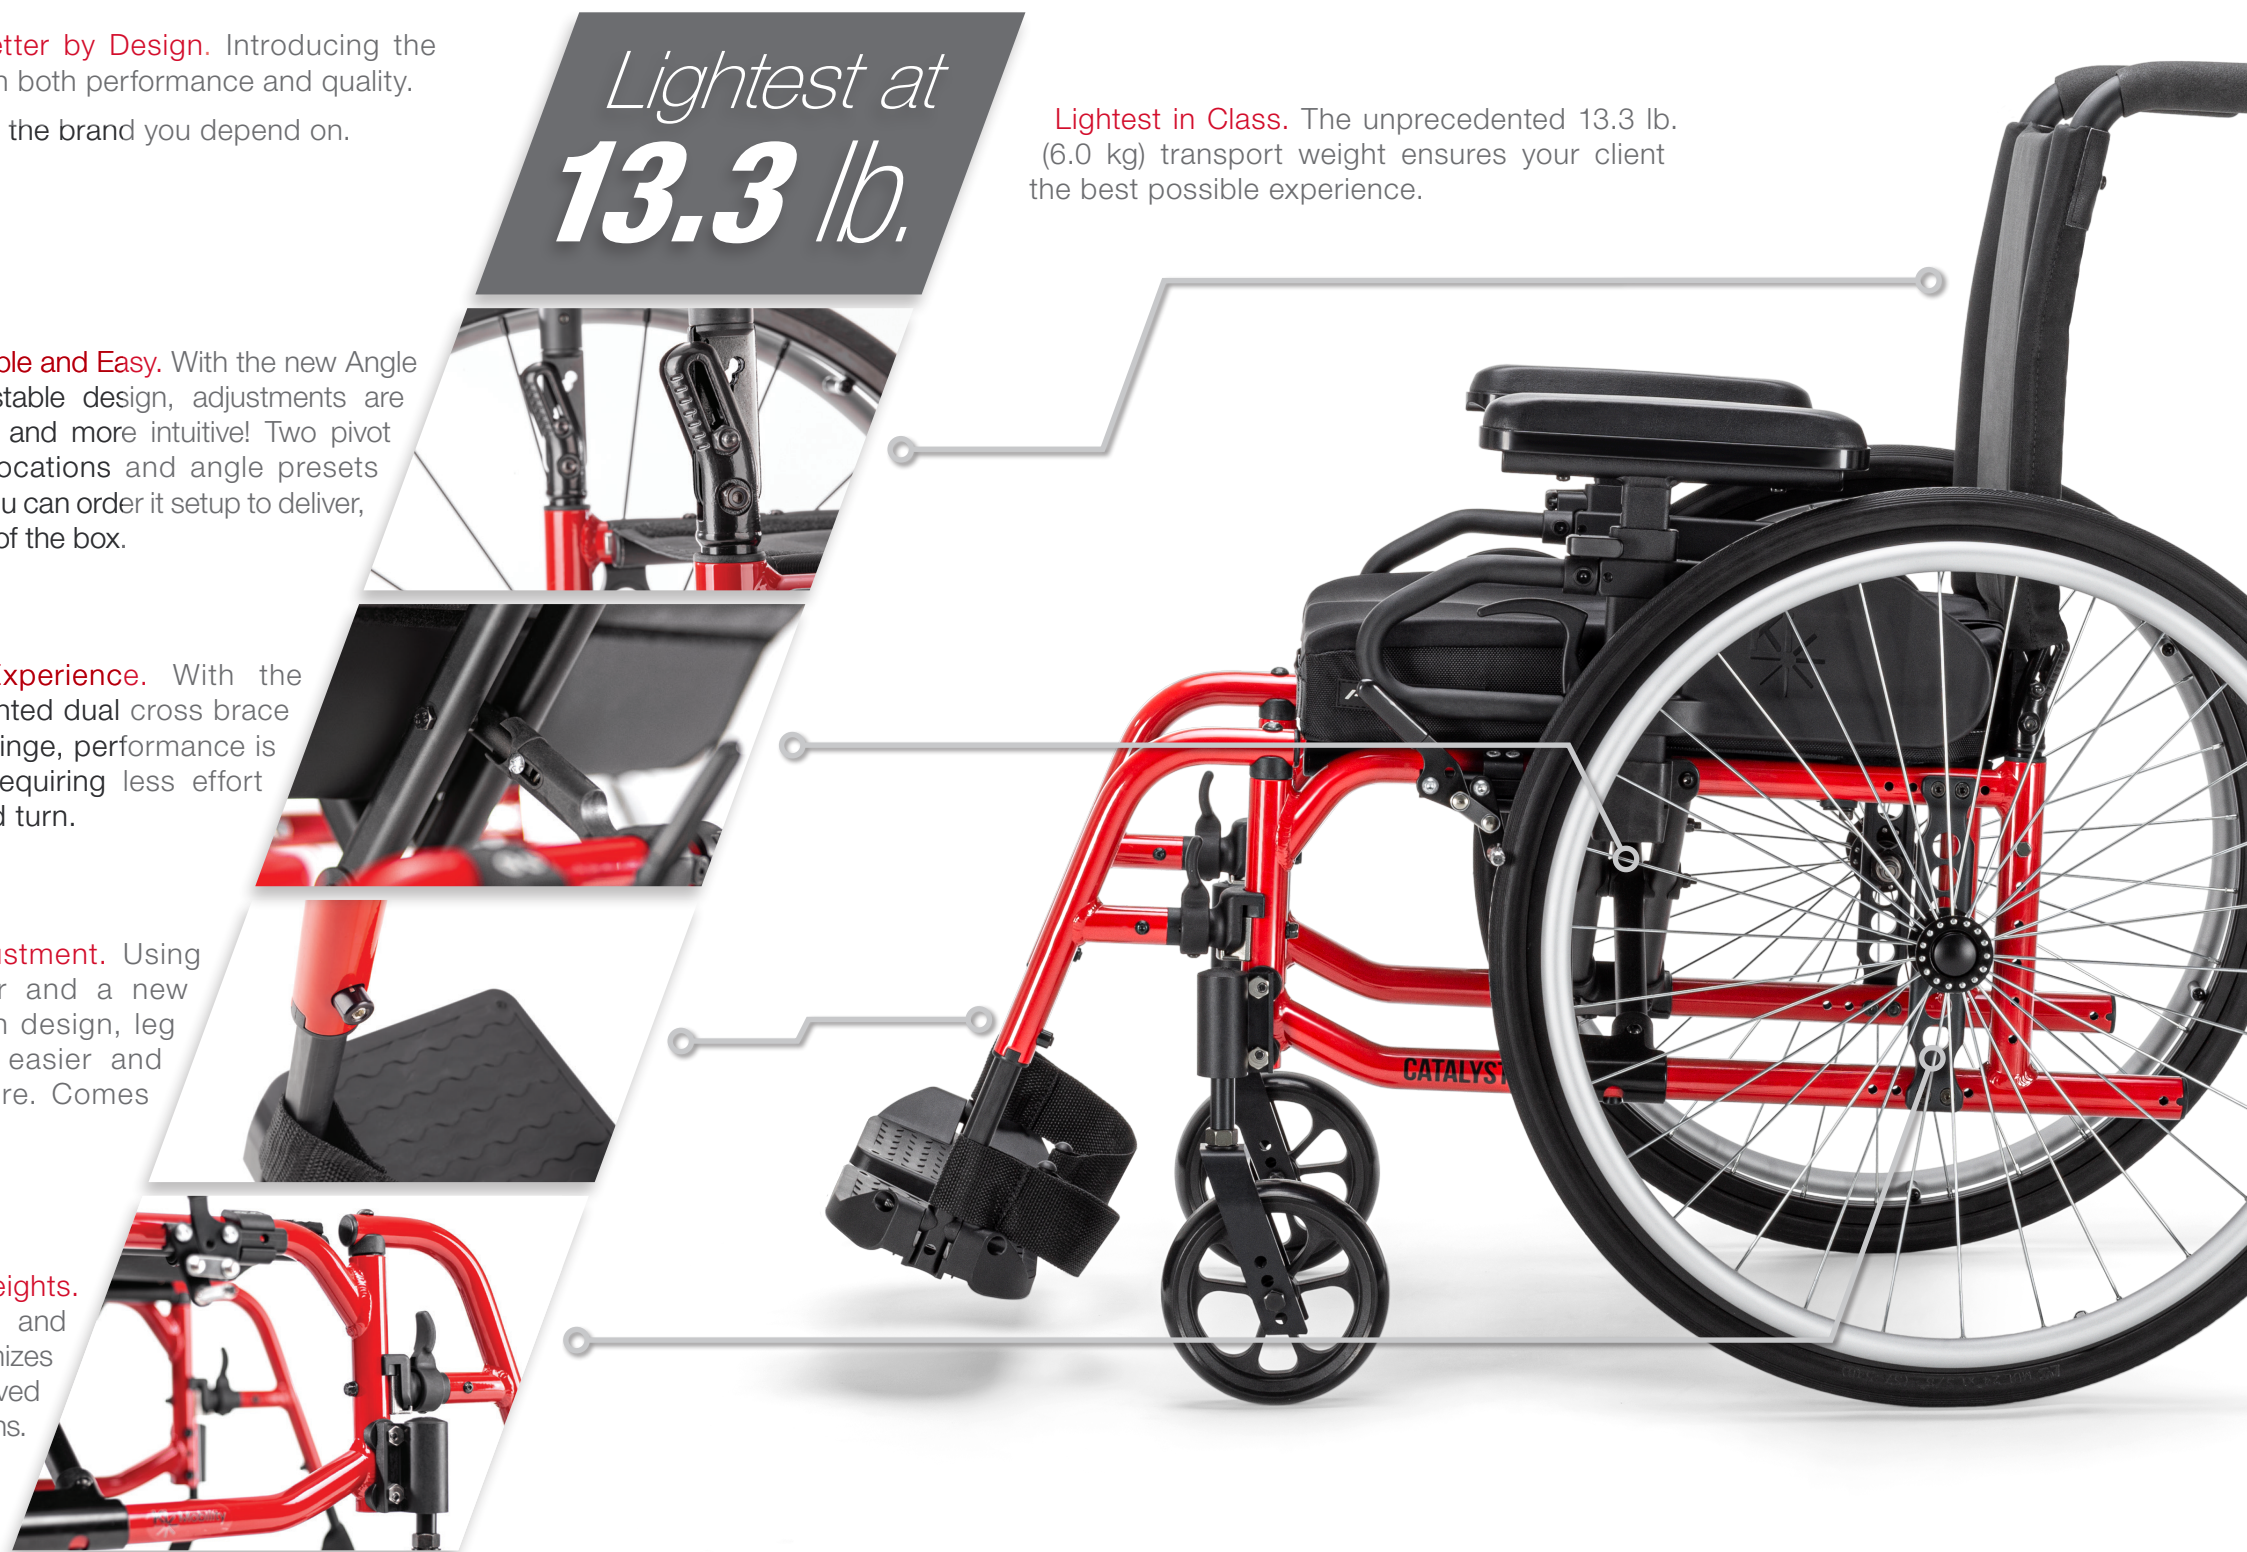

Lightest in Class. The unprecedented 13.3 lb. (6.0 kg) transport weight ensures your client the best possible experience.

Simple and Easy. With the new Angle Adjustable design, adjustments are easier and more intuitive! Two pivot point locations and angle presets mean you can order it setup to deliver, right out of the box.

A Better Experience. With the Catalyst patented dual cross brace and power x-hinge, performance is best-in-class; requiring less effort to push, fold and turn.

Quick, Infinite Adjustment. Using the Catalyst hanger and a new one-tool, anti-rotation design, leg length adjustment is easier and quicker than ever before. Comes with a lifetime warranty.

Lowest Built-in Seat Heights. The new single frame design and super low caster housing maximizes adjustability and provides improved performance over competitive designs. (12.5" - 21" | 31.8 cm - 53.3 cm)

YOUR TIME IS IMPORTANT

4^E lets you do more with less, today.

E*xpanded* opportunities, no added complexity. Universal parts means you can service and setup product across the entire Ki family quickly and efficiently with the least amount of on-hand inventory.

E*nhanced* quality over competitive products with better wheels, casters, footrests and frame components.

E*asy* to adjust, service and configure so you have more time for your customer.

E*xperience* the new standard for performance, efficiency and option choices.

CAN ANY OTHER PRODUCT SERVE YOUR CLIENTS AND YOUR BUSINESS BETTER?
